

## Additional Sports

### WOMAN ARRESTED FOR MAKING RACE HANDBOOKS

Chicago, Dec. 8.—The first woman to be arrested by the police on the charge of running a gambling house was taken into custody yesterday. She is Miss Laurel Johnson, also known as Laura Nelson. She and Harry Dudley were arrested by detectives from the Central station as alleged handbook operators.

Detectives found the man and woman in Dudley's cigar store, and took them to the station, where both gave bonds for appearance this morning. A formal charge of keeping a gambling house was filed against them. Miss Johnson is well known in the vicinity under the name of Nelson. She is about 25 years old.

### WATKINS SAYS COLLINS WILL BE IN CONDITION

Despite reports that have reached the Bird Leg Collins training camp, to the effect that Ogden fans are going to back Pete Sullivan when the two meet January 7, because Collins is said to be over-trained, a different view is held by the local fans. Bob Watkins, who arrived from Denver Tuesday to take charge of Collins, is known as one of the best trainers in the business. Watkins says that with the fight a month off, he will not get down to hard work with Collins until next week. He has handled Collins before and says that he is in great shape now and has improved greatly in his boxing.

### CARDINALS TO TRAIN FIRST IN TEXAS CITIES

St. Louis, Dec. 8.—R. L. Hedges, president of the American League baseball club, announced here today exhibition games for his team during the coming training season at Houston, San Antonio and Dallas, Tex.; Oklahoma City, Kansas City, Louisville, and Fort Wayne, Ind.

The first game is scheduled at Houston, March 3.

### SOME RICH STAKES AT SARATOGA NEXT YEAR

New York, Dec. 8.—For the season of 1910 the Saratoga racing association will provide a stake program which will entail the expenditure of \$300,000. This is a very material increase over the offerings of 1909 and is regarded by turfmen as evidence of the confidence which race track managers have for the future of the sport.

### WILLIAMS, DARK HORSE, TO BE NEXT SECRETARY

Chicago, Dec. 8.—Charles G. Williams, treasurer of the Chicago National League, may be the next secretary of the National league. So busy have been the magnates discussing the election of a president that the office of secretary practically has been overlooked. Williams has not come out as a candidate for the position, but it is said President Heydler favors him and that he will be first choice for the job if Heydler is re-elected.

### WILLIE HOGG DIES

Pueblo, Colo., Dec. 8.—Information was received here today by relatives that Willie Hogg, pitcher for the Louisville American association baseball club, died this morning in New Orleans. Hogg was with the New York Americans for five seasons. He was a Pueblo boy, and began his baseball career here.

Willie Hogg will be remembered by the old-time ball fans in Salt Lake as a member of the Salt Lake state league team in 1901 and 1902, and later as a member of the Spokane club in the Pacific National league. Hogg was one of the most popular players that performed on a Utah diamond and always could count on a hand from the home fans. He was a good pitcher and all around consistent ball player.

### FORMER WINNERS.

The previous winners of the New York six-day race and the distance covered follows:

Year	Winner	Miles Laps
1899	Miller and Waller	2,733 4
1900	Kilkes and MacFar	2,625 7
1901	Walthour and McEachern	2,555 4
1902	Leander and Krehen	2,477 3
1903	Walthour and Munro	2,313 3
1904	Root and Dorlon	2,286 3
1905	Root and Fogler	2,292 3
1906	Rutt and Stoll	2,312 3
1907	MacFarland and McEachern	2,737 4

Whether the "place" is advertised or the servant advertises the want ad, does its part.

## SWITCHMEN DO NOT MAKE ANY SHOWING

After One Week the Strikers Have Lost Instead of Gained Ground.

### FREIGHT TRAINS MOVING

STRIKE PARTIALLY EFFECTIVE IN MONTANA AND SPOKANE.

St. Paul, Dec. 8.—After one week the striking switchmen have gained no material ground and the railroad officials assert that the strike has been broken. A trip through the terminals was made yesterday afternoon by a party of St. Paul business men, and their signed report on the condition as they found it indicates, at least, that whatever hold the switchmen have on the situation is outside the Twin Cities.

St. Paul, Minneapolis, Duluth, Minneapolis Junction and Minnesota Transfer are working about normally. At Great Falls, Butte, Spokane, Seattle, Superior and a few other places the switchmen are said to have the upper hand.

### Some Trains Tied Up

At Great Falls, for instance, the normal equipment of the Great Northern is nine engines and thirty-two men, while there are working only two engines and three men.

At Butte the normal is six engines and eighteen men, and there are working one engine and two men. Spokane's normal is five engines and twenty men, and there are working two engines and six men. At Seattle the normal is nine engines and thirty men, and there are working three engines and six men.

President Frank T. Hawley of the switchmen's union declared that the railroads were making up trains of empties, sealed, to convey the impression that freight was moving. The railroad officials say they can move freight as easily as they can handle empties.

### Freight Being Moved

Chicago, Dec. 8.—The Railroad General Managers' association, which has been looking after the switchmen's strike in the northwest, issued a statement tonight, saying:

"General Manager Gruber of the Great Northern has just wired us that twenty-six switchmen returned to work at Spokane today, entirely clearing up the situation at that point.

A lengthy telegram just received shows that prominent business men of St. Paul have investigated the situation independently of the railroads, and their conclusion is a matter of record to the effect that freight is being moved in a satisfactory manner. If this were true, we would curtail the business enterprises would complain."

### Conditions at Seattle

Seattle, Wash., Dec. 8.—The first strikebreakers imported to the Pacific north-west to take place of striking switchmen, arrived today, when the Great Northern brought fifteen non-union men from the east. They are being housed in mess cars at the Interbay yards, where guards have been stationed to protect them.

The Great Northern has four freight trains scheduled to work on the day shift and will add one more tomorrow. No night crews will be put on in the freight yards. The strike is completely broken at Everett the Great Northern has twelve non-union men working. In the passenger yards a normal condition is said to prevail.

### The Northern Pacific resumed switching service along the water front today, greatly relieving the stagnation in marine circles caused by the non-delivery of carload consignments from interior points.

### PAPERS SERVED IN CASE

William H. Crocker Sued for \$250,000 by Francis J. Heney for Alleged Libel.

New York, Dec. 8.—Because of the absence of James M. Beck from the city it was impossible to verify today the report that he, representing Francis J. Heney, had begun suit here against William H. Crocker for \$250,000. Mr. Beck was said to be in Washington and Mr. Crocker had already started for San Francisco with the body of his brother, George Crocker, who died here last week.

Over the signature of Mr. Crocker a New York evening paper published last Friday a letter referring to Mr. Heney's connection with the graft prosecutions in San Francisco. The courts have no record of the case thus far.

### Los Angeles, Dec. 8.—Francis J. Heney, who is in the city on his way to Arizona, confirmed today the report that he had filed suit in New York against William H. Crocker of San Francisco for \$250,000 for alleged libel. Heney said that the papers in the action were served upon Crocker in New York yesterday.

## SEMBRICH CONCERT ARRANGED FOR TONIGHT IS CANCELLED

At 3 o'clock this morning, the concert which had been arranged for the Salt Lake theatre tonight was ordered cancelled, owing to the illness of Professor Wilhelm Stengel, Mme. Sembrich's husband, who is suffering from pneumonia. Professor Stengel has been ill for several days. On Tuesday late at Denver he showed symptoms of pneumonia, but not alarming, and his company, left that city Tuesday afternoon for Salt Lake. They were due to arrive here at about 8 o'clock last night, but the train was late, and when last reported was not expected until 4 o'clock this morning.

While en route to Salt Lake, Professor Stengel became worse, and Mme. Sembrich wired her advance agent here that it would be impossible to give the concert, and she would not stop. Mme. Sembrich and her husband will proceed on to Los Angeles, where it is hoped the milder weather and lower altitude will prove beneficial to her sick husband.

Professor Stengel is about 65 years of age. He was Mme. Sembrich's first instructor in music. Their home is at Lake Geneva, Switzerland, and it is expected that Professor Stengel will be taken there as soon as he is able to cross the ocean.

It is denied that the discouraging advance sale had anything to do with cancelling the concert.

MME. MARCELLA SEMBRICH.

## DATA OF DR. COOK NOW SAFE IN COPENHAGEN

Papers Turned Over to University, Where the Examination Will Be Made.

Copenhagen, Dec. 8.—The north polar observations of Dr. Frederick A. Cook reached here today on board the steamer United States. Extraordinary precautions were taken to make sure that the long-heralded data were delivered safely to the university's authorities.

As soon as the United States was tied up at her pier an iron box containing Dr. Cook's report and the diaries in which his original entries were made was brought ashore.

The box was closely followed by Walter Lonsdale, Dr. Cook's secretary, who had guarded the box. On the pier Lonsdale and two detectives bundled the iron box into a motor car and were driven hastily to the University of Copenhagen.

Their car was followed by a second automobile, in which the university's authorities were formally turned over to the authorities and placed in a strong room, where they will remain until the committee appointed to examine them is ready to begin its labors.

The examination will be made probably at Copenhagen observatory. None but the duly chosen commission representing the University of Copenhagen will be permitted to be present.

### United States Minister Egan was to have attended the committee meeting, but will not be able to do so because of the delay in the arrival of the records. Mr. Egan leaves tomorrow for the United States.

The coming of Dr. Cook's papers is accompanied by signs of a revival of the Cook-Pearry controversy.

The Politiken asserts this morning that the supporters of Commander Peary are trying to enlist the services of Greenland explorers in organizing an anti-Cook press campaign.

## GRAIN DANGEROUS CARGO

Capsize of Bark Matterhorn Clears Up Mystery of Fate of Brodick Castle.

Seattle, Wash., Dec. 8.—The capsizing of the bark Matterhorn off the Washington coast last week clears up the mystery of the fate of the British ship Brodick Castle, according to Captain R. L. Salter of the Matterhorn, who says that the latter vessel's barley cargo probably shifted and took the ship to the bottom of the sea. The Brodick Castle sailed from Astoria, Ore., December 5, 1908, and was never afterward heard from.

Like the Matterhorn, she carried barley from Portland for Ipswich, and like the Matterhorn, she encountered a violent storm the day after she left the Columbia river.

The storm shifted the Brodick Castle's cargo the same as it did ours," said Captain Salter.

In time, with the motion of the ship, a barley cargo settled down, but when a new cargo is tossed by a storm it shifts."

### PASSED BAD CHECKS.

Pasadena, Cal., Dec. 8.—John E. Bennett, who gives his home as Columbus, O., and who is alleged to be the son of a wealthy people living there, was arrested here today on a charge of having passed worthless checks.

## GAYNOR DEFENDS NEW YORK AS DECENT CITY

Takes a Crack at Richard Croker During After-Dinner Speech.

New York, Dec. 8.—Secretary of War Dickinson and William J. Gaynor, mayor-elect of Greater New York, were the principal speakers tonight at the annual dinner of the Southern society of New York. The secretary of war spoke of the north, the south and the nation, but Judge Gaynor confined himself almost solely to municipal issues. Six hundred southerners were present.

Judge Gaynor in this, his first public address since his election, said in part:

"The long line of officials and bosses who make themselves millionaires out of the government of this city, some of whom live abroad and impudently visit us occasionally, now that the statute of limitations has outlawed their villainies, is a standing disgrace to the moral tone of the community."

Hastening to the defense of the "city's name," Judge Gaynor continued:

"This city has been most grossly slandered for several years with respect to its morality, financial credit and otherwise. Let us put a stop to that. Mere scolds and sensationalists are not to be suffered to give this city a bad or even vile name throughout the world. I am prepared to say, from travel and other means of information, that New York is the most orderly, decent and moral city in the world."

## TWO MEN DEAD AND ONE SERIOUSLY WOUNDED

Tragedy Follows Attempt to Serve Papers in Divorce Suit in Kansas City, Kan.

Kansas City, Mo., Dec. 8.—The attempt of Charles H. Lukens, a deputy sheriff in Kansas City, Kan., to serve papers in a divorce suit on Charles Galloway led to the killing of Lukens, the mortal wounding of Galloway and the serious shooting of Harry Anderson, a detective here tonight. Galloway died later at a local hospital.

Accompanied by William Drew, city marshal of Rosedale, Kan., Lukens attempted to serve the papers on Galloway in a street. Galloway ran, and the authorities followed. The officer shot at the fleeing man, who returned the fire, shooting Lukens through the heart. Drew fired at Galloway, but he escaped.

Sheriff Albert Becker of Wyandotte county, Kan., then organized an armed posse to search for Galloway. He was found barricaded in the house of J. E. Grevson, his business partner in Kansas City, Mo. When officers forced an entrance he jumped into a closet and, firing through the door, shot Anderson through the arm. The officers fired through the door and Galloway fell, shot through the stomach.

Galloway was a prosperous business man.

## WILL HAVE TO CHANGE ITS SYSTEM AT ONCE

American Indemnity Company of New York Is Now Under Criticism.

Albany, N. Y., Dec. 8.—The management of the American Indemnity company of New York is criticised in a report made public tonight by Superintendent of Insurance Hotchkiss, following a joint examination of the company by the insurance departments of New York and Massachusetts. The company, organized under the laws of New York, has its headquarters at St. Louis.

In compliance with the conditions imposed, which include a change in management," says the report, "seem to warrant the conclusion that the company may safely continue in business."

The report says the preliminary financial statement of the company called attention to an impairment of capital, which, while doubtless emphasized by heavy losses in the panic of 1907, "is, in the final analysis, traceable both to what seems to the examining department to have been in the past an insufficient loss of reserve and to practices and operations covering a period of years."

The report then adds:

"The impairment has been met by a reduction in the capital stock from \$1,000,000 to \$350,000 at a stockholders' meeting held on November 29. Steps have been, or shortly will be taken by the company at the instance and under the supervision of the examining departments, which will make unlikely repetition of the practices to which criticism is directed."

## SENATOR SMOOT AT POTTERS' BANQUET

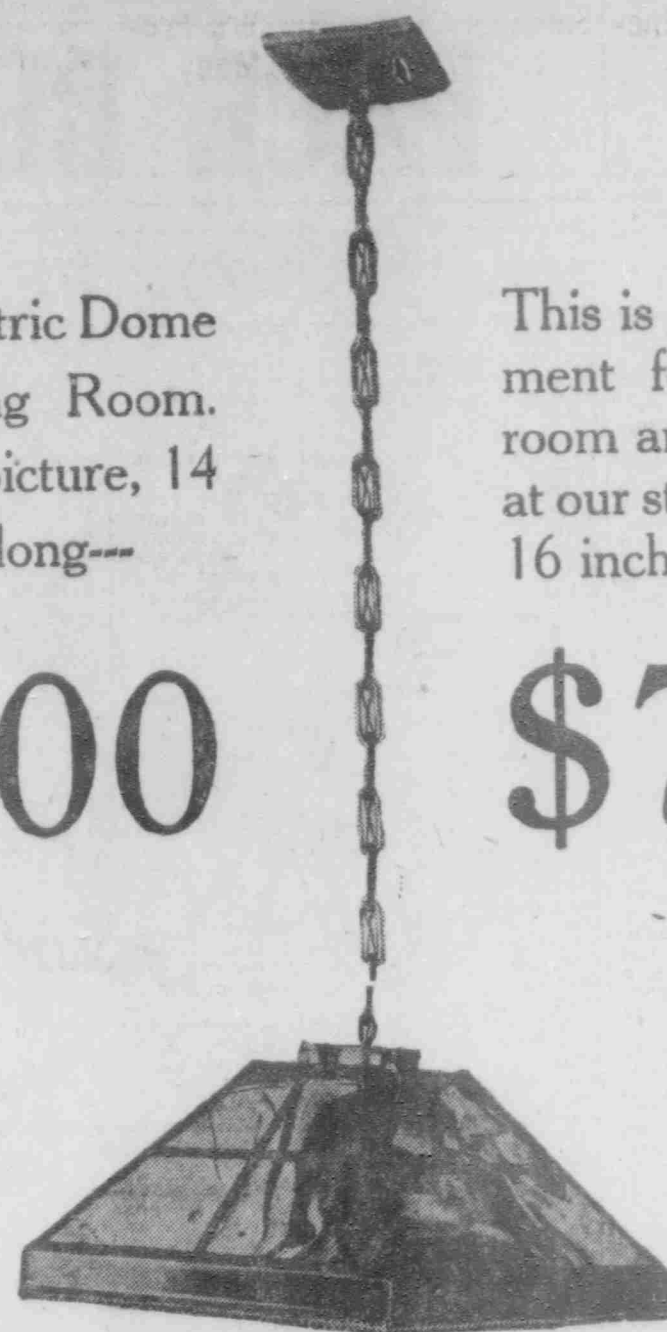

Washington, Dec. 8.—Half a dozen of the United States senators and a score of congressmen were guests tonight at the annual banquet of the United States Potters' association, which is in convention here. One of the speakers was Senator Smoot of Utah.

## THE Most Acceptable Xmas Gift

Ask to see the D. S. S. U. Special Fountain Pen at 75c.  
**Deseret Sunday School Union Book Store**  
44 East South Temple.  
Mail orders filled same day as received.

## MAY BOTHER EARLY TO SECURE HIS RELEASE

Alleged Leper Went to Washington and Was Immediately Arrested.

Washington, Dec. 8.—When the case of John Early, the alleged leper, came up in police court today, Early's attorneys asked that he be discharged on constitutional grounds. Being overruled, exemption was taken and the attorney announced that Early would not consent to a trial by police court unless he be permitted to be present in court. A movement by the district counsel for a trial by jury, which would mean practically life imprisonment for Early, was met with a motion by Early's counsel for the postponement until tomorrow. This was granted.

Lansing, Mich., Dec. 8.—A case of suspected leprosy came to the attention of Secretary Shumway of the state board of health in a report from Dr. A. S. Warthin of the University of Michigan. Dr. Warthin said Stanislaw Squezza, a Finn, who resides with his wife and family in seven children at Calumet, Mich., presents all the characteristics of the disease. The man came from Alaska five years ago.

**BANKER ARRESTED.**  
Janesville, Wis., Dec. 8.—Calvert Spencey, president of the defunct First National Bank of Mineral Point, who was indicted by the grand jury, was arrested and taken today to Madison.

## LEOPOLD OF BELGIUM PREPARED FOR DEATH

Company Formed to Conserve the Rights of His Daughters and Avoid Suits.

Brussels, Dec. 8.—Official denial was made today of the report that King Leopold was seriously ill and it was also stated that he was suffering neither from apoplexy nor pulmonary troubles. The official announcement concludes:

"The king is afflicted with muscular rheumatism, which is exceedingly painful, but today he was able to walk about in his apartments."

The king, with a few friends, recently formed a company, capitalized at \$250,000, covering chiefly the art gallery and various estates of Leopold in Brussels and Laeken. The ostensible object of the company was the conservation and development of the property, but the real purpose is understood to be the desire of his majesty to protect, in the event of his death, the inheritance rights of his daughters and prevent a repetition of the claims, seizures and sales which occurred after the death of the queen.

Paris, Dec. 8.—Private advices from Brussels state that King Leopold is slightly improved. The entire right side was paralyzed yesterday, but today the king was able to sign documents. He still suffers greatly from rheumatism and attending physicians call at the palace thrice daily.

## VARIOUS SHIPS NEEDED

Repair, Hospital and Ammunition Vessels Asked of Congress by Navy Bureau.

Washington, Dec. 8.—With the navy medical corps asking for hospital ships and the bureau of construction and repairs demanding a repair ship, the bureau of ordnance has come forth with a supplication for an ammunition ship. Admiral Mason, chief of ordnance, in his annual report, made public today, presents arguments to show the need of such a ship.

Admiral Mason states that the guns for the new battleships Arkansas and Wyoming, now under construction, have been tested and that they will be at least the equal of any thus far proposed abroad.

The guns are 15 inches, 50 calibre, as compared with 12 calibre on ships now in service. Each of the new ships will carry twelve guns of this type.

In the test of the 15-inch guns, 20 calibre, an initial velocity of 2,050-foot seconds was developed, and a muzzle energy of 52,500-foot tons obtained. In five rounds fired at 17,400 yards range, the dispersion was less than 100 yards. The bureau recommends that congress grant authority for the navy department to purchase in whatever manner desirable ordnance material which involves military secrets.

**DRANK CARBOLIC ACID.**  
Rosewell, N. M., Dec. 8.—Despondent because of the continual drinking of her husband, Mrs. J. B. Dearing of this city drank a large quantity of carbolic acid last night. She lived for nearly two hours after drinking the poison.
